Women head 84% of homeless families and there has been a troubling rise in the number of homeless children in our country. Homeless children are four times more likely to show delayed development and twice as likely to have learning disabilities as their housed peers.

*The mission of First Light is to work with homeless women and their children to create hospitality in a safe and nurturing community, to encourage them to maintain dignity, to find hope, to seek opportunity, and to grow spiritually, thereby achieving their full potential.*

**First Light provides much more than emergency shelter. First Light ensures that a professional with a degree in social work from an accredited college provides each and every guest with individual attention and support to develop and adhere to a plan of action to overcome obstacles to independence.** First Light also provides permanent supportive housing programs for those who need support to sustain housing, and two programs unique to our community: the only transitional supportive housing program for victims of domestic abuse with no income, and a pioneering privately funded rapid-rehousing program for homeless families with children.

Please help us provide safety, opportunity, and hope to the most vulnerable in our community.
